SAVE NATURE - Circular Economy

SAVE NATURE - Circular Economy is a project developed by students aged 16. It introduces Circular economy principles with an information poster explaining the 5 Rs- refuse, reduce, reuse, repurpose, recycle and a game based on Monopoly - Eco-Monopoly. A number of online tools were used: WordWall, YouTube, Kahoot!, Video editor, QR code generators.

Understanding how circular economy works before and after our project activities

Conclusion: Like the elements of the Earth, our time to act is limited, so let's not waste it and start applying the principles of circular economy - the 5R's - refuse, reduce, reuse, repurpose, recycle.
