## History in STEM format

- A universal template for a STEM lesson

- WHAT DO WE DO IN THE LESSON?
- WE'RE MAKING A HISTORICAL MOVIE!

Check the script for historical errors

Connect mathematics and counting years

Create a movie poster using artificial intelligence

Create scenery and props with our own hands

Shoot scenes for a historical movie

*What is the use of "History in STEM format"? For students, this is a bright, memorable lesson that is aimed at functional literacy. For teachers, this is a template that will reduce the time for lesson preparation, an opportunity to demonstrate the use of historical knowledge in real life.*
