Bosiljko Đerek | Primary School Središće | Zagreb | Croatia

"There and Back Again: A Space Tale"

An eTwinning project in the contemporary space exploration research, with the participation in the ESA's International contest "Moon Camp Challenge 2022 – 2023"

PROJECT'S GOALS

- ❖ Collaborative study of **Space Exploration History & Space Law**.
- ❖ Independent participation in ESA's International Contest, "**Moon Camp Challenge 2022-2023**", in order to design a lunar base for a long-term living of a six-astronaut team. This included:
 - ✓ Meticulous scientific research
 - ✓ Low & High Fidelity Prototyping via the 3D modeling tool, "Tinkercad"
 - ✓ 3D Printing

ACKNOWLEDGEMENTS

- ❖ National & European Quality eTwinning Labels
- ❖ 1st National eTwinning Prize in Greece
- ❖ 3rd Place at the Moon Camp Challenge 2022-2023, Explorers category, for the 1st Gymnasio of Polichni

By harnessing **Space as a medium for teaching**, we've created an innovative initiative for learning, **promoting STEM courses** and **inspiring future generations** to explore the realms of science, technology, engineering, and mathematics. This endeavor not only enriched participants' digital skills but also cultivated educational, cultural, and social identities.

Join us as we pave the way for the space exploration future!
